Executive Summary

\$8bn total revenue

559K units sold across 2014–2015, with the bulk of transactions occurring in early 2015.

Florida & California lead

FL and CA are the top two states by sales volume, together accounting for over 30% of national transactions.

SUV & Sedan dominate

Together, SUVs and Sedans make up over 55% of all units sold — the clearest signal of buyer preference.

Consistent underpricing

Cars sold at an average of \$158 below MMR market value, suggesting a systemic pricing gap across manufacturers.

February is peak month

Sales peak sharply in February. April sees the steepest drop — inventory and marketing should align to this pattern.

Avg profit per car

- **Total Sales:** Defines top-line gross revenue. It represents the absolute cumulative value of all vehicle transactions before any deductions, indicating market scale and volume.
- **Margin Over MMR:** Defines absolute pricing health against market benchmarks. By tracking the difference between actual sales and the wholesale benchmark ($\{\text{Total Sales}\} - \{\text{Total MMR}\}$), it reveals whether inventory is moving at a net premium or net loss.
- **Total Units:** It tracks the exact count of transaction records, showing the total asset throughput handled over the selected timeframe.
- **Avg Sale Price:** Defines the mean transaction value per vehicle.
- **Avg Profit per Car:** Defines operational efficiency and individual unit profitability. It calculates the mean variance between actual transaction price and wholesale value per vehicle.

Sale Trend Analysis – via Linechart

Total Sales by salemoth

⚡ February peaks at ~\$2.3bn. April crashes 95% — likely seasonal auction cycle.

Insights & Recommendations

Three data-backed actions to improve car sales performance

0

Finding: Cars sell \$158 below market value on average

1

→ Review pricing strategy for high-volume SUV and Sedan segments. Introduce MMR-anchored floor pricing to close the gap.

High impact

0

Finding: February is peak, April drops 95%

2

→ Align inventory stocking and marketing campaigns to the Jan–Feb window. Investigate April data gap for auction cycle opportunities.

Medium impact

0

Finding: FL and CA dominate sales volume

3

→ Prioritise dealership investment, auction partnerships, and digital marketing spend in Florida and California.

High impact
